DIED SUDDENLY

OF HEART DISEASE.

How frequently does a head line similar to the above greet us in the newspapers. The rush push and streamousness of the American people has a strong tendency to lead up to valvular and other affections of the heart, attended by irregular action, palpitation, dizmess, smothered sensations and other distressing symptems.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovary is made are recommended by some of the leading writers on Muteria Medical for the cure of just such cases. Unidan Seal root, for instance, is said by the Ustran Status Dispassance, is said by the Ustran Status Dispassance, is said by the Ustran Status Dispassance, and increased power to the heart's action. Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb general tonic. But probably the most important lugradient of "Golden Medical Discovary," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or Collinsonia Cam., Prof. Wm. Paine, author of Paine's Epitomy of Medicine, says of it:

"I, not leng since, kad a patient who was so much oppressed with valvular disease of the heart that his friends were obliged in castry bin unswains. He, however, gradually recovered under the indusor of Odlinsonia from the profession of the heart that his friends were obliged to carry bin unswains. He however, gradually recovered under the indusor of Odlinsonia Content of the season of t

Such cases, and in most instances eneces agreed by Dra.

Blose root is also recommended by Dra.

Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart.

The latter says: "It is a heart tonic of direct and permanent infigures."

"Golden Medical Dispovery," not only sures sprious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, invigorating the liver, regulating the bowels and ouring outerrhat affections in all parts of the system.

Priest and Woman Found Dead. The liteless bodies of Father C. S. Quinn, formerly assistant pastor of St Agnes Church, at Atlantic Highlands, N. J., and Miss Wolly Bridget Kelley, until recently housekeeper at the St. Agnes parish house, were found in a room at a boarding house on east Eighteenth street,

The couple engaged a room at the
boarding house on Tuesday last. They

returned in the evening, carrying several grips and satchels, and were not seen again until their bodies were discovered yesterday, when attention was drawn to their room by the odor of gas. The po-lice found nothing in the room that

According to Bishop McFaul, Father Charles Quinn, formerly of Atlantic Highlands, was not suspended from the priesthood by him. Father Quinn was not a priest of the Trenton discess, but a substitute from another diocese, who was made use of during the summer. He was allowed to go recently when Father Carroll relieved him.

An Eventful Voyage The British freight steamer St. George commanded by Capt. H. B. Sadler, arrived at Boston yesterday after it had escaped destruction by a typhoon, and later by fire, which broke out in the cargo

of hemp.
The St. George left New York last
June for Japan, laden with steel for the
Japanese government. Since that time
she had traveled 34,000 miles, and for the past 78 days she has been steaming almost continuously.

While the freighter was on her way from Kutsinotsu, Japau, to Cebu, a ty-phoon chased the vessel. It was the same disturbance that devastated the port of Hongkong. For a time it looked as it the vessel would be unable to escape, but just as the crew had abandoned hope the freighter steamed out of the grasp of the typhoon, which was shooting great

The st. George then proceeded to Ma-nils, from which port she sailed on October 4 with a cargo of hemp. Sailing from Algiers on November 21 the steamer was out less than 24 hours when a brisk fire was discovered in No. 3 hold. Steam was injected into the compartment and the vessel headed for Gibraltar. Just when it was believed that the fire was subdued flames broke out anew and were not extinguished until several hours after the steamer had reached Gibraltar.

The room was meeting within the precincts of the filled with gas, which was escaping from British House of Commons, in London, and as a result five women and one man were arrested after an exciting fight with the police.

The gathering was arranged by the women workers of Manchester and east London, who assembled in strong force. The police were taken unawares, and some women got within the entrance to the House before their object was de tected. When the police finally barred the entrances, the women tried to hold their meeting in the palace yard. A their room by the odor of gas. The police found nothing in the room that

the case was one of suicide. Father Quinn

The coroner ordered an autopsy to be performed on the bodies today. He also will command that liquor he found in a glass in the room should be analyzed if the autopsy is list to develop conclusively the cause of death.

Among Quinn's effects was a letter from Bishop McFaul, of Trenton, in which Quinn was informed that he would be called upon to explain the
